Key Message

Effective: October 21, 2020
Those Affected Include: Emergency Medicine Providers

Update to Code Stroke Order Set with Telehealth Consult Order

The new Telehealth Inpatient Consult order defaults to the Code Stroke order set to support the required E/M coding for Telestroke:

- Use the Telehealth Consult order for the Code Stroke workflow.
- Neurology can now document on the Telehealth Consult order.
- No additional action is required by the Emergency Medicine Provider.

Code Stroke order set and Telehealth Consult order:
