

Eval Dx Training Video

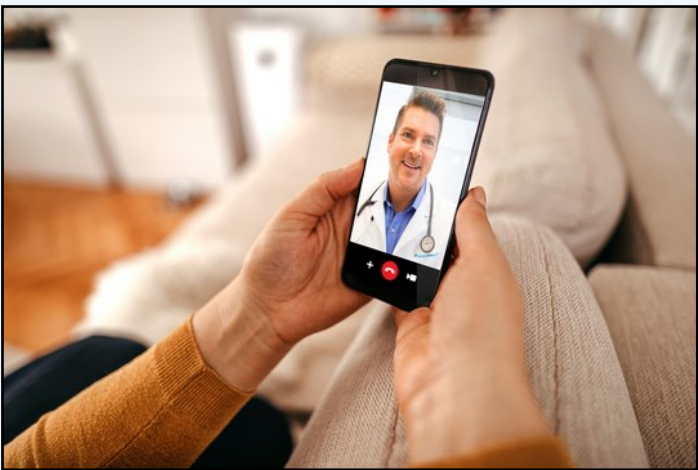

Background

- The video is a segment from an educational meeting that was presented to Core VMC physicians.
- Our goal is for all our clinicians to be familiar with the training and tools so that they can easily take care of this when EvalDx triggers during a virtual encounter.
- This is important, even if you are already trained in doing this in your face-to-face setting, as there are nuances on how to complete this in the virtual setting.

Why is This Important?

- Chronic diagnoses need to be addressed/evaluated annually.
- Some patients are only seen virtually, so we need to leverage every encounter.
- This is the framework for our model of integrated care, in which we leverage all encounters to provide high-quality patient care.

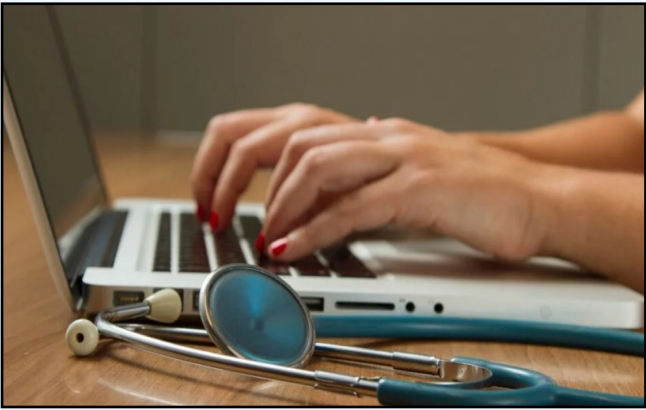

Logistics

- The audience for this is all clinicians that work in the virtual care setting and provide care through the Get Care Now platform.
- The video is just under 30 minutes and needs to be viewed when logged in to KP intranet.
- We value your time and will reimburse you once you complete the training and submit your name at the end of the session.
- **We do request that you put the training into practice.**

How Do I Access the Eval Dx Training?

Introducing the GPC Mailbag!

At GPC Clinical Corner, we strive to provide tips on the best clinical practices, navigating patient encounters, and updated information on treatment options.

This year, we'd like to expand our scope to include your suggestions. We're proud to announce the GPC Mailbag, where you can request topics for discussion, or even specific questions, that you'd like to see in a future newsletter. You can reach us at GPCMailbag@kp.org. We look forward to hearing from you!
