

Everything You Need to Know About Remdesivir

Why is This Important?

- The number of COVID-19 cases in Orange County has been steadily increasing since the beginning of May.
- Hospitalizations overall remain at low levels.
- A higher volume of cases are being managed through virtual appointments.

What is it?

- A nucleotide analog that inhibits the SARS-CoV-2 RNA polymerase.
- Preferred alternative option for COVID-19-specific therapy for symptomatic outpatients who are at risk of severe disease and cannot use [nirmatrelvir-ritonavir](#).
- In clinical trials, remdesivir reduced the risk of hospitalization or death by 87% among high-risk unvaccinated patients with COVID-19 treated within 7 days of symptom onset ([Gottlieb, 2021](#)).

Note. From *Tracking COVID-19 in California* [Infographic], by State of California, 2023, (<https://covid19.ca.gov/state-dash-board/#county-statewide>).

When Should Remdesivir be Used?

- Paxlovid is considered the first line treatment (grade-A recommendation from NIH).
- Remdesivir is recommended only for patients who do not qualify for Paxlovid for any of the following:
 - ☐ Onset of symptoms > 5 days (day of onset of symptoms is day zero), OR
 - ☐ Chronic kidney disease (eGFR < 30) or significant liver disease (Child-Pugh class C), OR
 - ☐ Significant drug interaction.

Inclusion Criteria	Exclusion Criteria
• The patient meets criteria [NIH inclusion (here)] noted, AND • Presence of mild to moderate symptoms within 7 days or less.	☐ Requiring oxygen therapy due to COVID-19, OR ☐ Requiring hospitalization due to COVID-19. ☐ Pre- or post-exposure prophylaxis for prevention of COVID-19.

Remdesivir Treatment Guidelines by Service Area		
Service Area	Preferred Method	Specifics by Instance
LAMC	Placing Order Complete the Remdesivir order using a Smart Set, and after completion, route to a specific pool for coordinating treatment.	Complete Smart Set, then complete referral through Tapestry.
Panorama City		Complete Smart Set, then route. (Follow Panorama City workflow listed in guidelines.)
Woodland Hills/Ventura		Complete Smart Set (follow Woodland Hills-specific Smart Set asks), then route.
Downey	Local Pool Do NOT order Remdesivir, but instead refer the patient to the local area by routing the chart to a pool. The local service area will then reach out to the Member to coordinate care.	P 17078
West LA		P 19708 - WLA COVID FOLLOW UP POP CARE
SBC		P 19662
Kern		P URI LIVE Team [19632]
Orange County		OC COVID-19 REGENERON INF DIS [P 20078]
San Diego	Remember that, to route to a pool, you must be in the appropriate HC instance.	P 17484
Riverside		Link to access Teams page: https://teams.microsoft.com/channel/19%3aOCfQGTTTPV_ewBEbI9xfJj7hiOtsU4inywou5oDHhfrw1%40thread.tacv2/General?groupId=9b2e452c-b870-4ba0-a7e1-bc332e472d8c&tenantId=3f8a7bc4-e337-47a5-a0fc-0d512c0e05f1 Please include in your message: Pt name, MRN, Date of + COVID test
