CODE STROKE?

YES

NO

Activate Code Stroke

Stroke Team

- Evaluates pediatric patient
- Confirms Last Known Well Time (LKWT)
- Performs initial PedNIHSS / NIHSS assessment
- Collaborates with ED Pediatric Team on treatment and management of pediatric patient with stroke

Further care to be determined by
ED Pediatric Team & Pediatric Neurology
based on individual patient's clinical needs

≤ 30 min

- Inpatient Pediatric Team collaborates with TeleStroke team to call the **Pediatric Transport and Advice Center (PTAC)** and arrange transfer if appropriate level of care is not available locally.
- Most pediatric stroke patients will be transferred to Kaiser Foundation Hospital Fontana or Los Angeles while patients in San Diego will be routed to Rady Children's Hospital.

PEDIATRIC CARE

 **KAISER PERMANENTE®**
