

Outpatient Heart Failure Transitional Care Program (HF/TCP)

Hours: M-F 8:00AM-4:30PM

Phone: (909) 609-3932

A telephonic based program designed to help reduce hospital readmissions for patients recently hospitalized with heart failure.

Services Provided

- Within 5-7 days of Hospital or Emergency Room discharge – CHF Pharmacist according to P&T approved Heart Failure Care Clinic protocol provides medication reconciliation, medication management focused on fluid management, labs (if appropriate), and patient/caregiver Heart Failure education
- CHF Pharmacist and RN Care Manager will follow patient for about 3 months post-discharge to monitor fluid status, weights, BP/HR, and reinforce sodium and fluid restrictions

Patient Qualification Criteria

- Hospitalized in the past 12 months with primary discharge diagnosis of heart failure
- Newly diagnosed CHF or newly found EF < 40%
- PCP must be within San Bernardino County Service Area
- **EXCLUSIONS:** Hx of heart or kidney transplant, dialysis, qualifies for Palliative or Hospice Care, enrolled in CPM (Chronic Population Management), or discharged to SNF

How to Refer:

- Inpatient or ED Case Manager enters HF TCP Questionnaire
- Physician places referral to Population Care Management:
 - 1) Enter patient MRN and select *Add Order*
