

Addressing Evaluate Dx in GCN Encounters

Why is it Important to Address Evaluate Dx?

- Get Care Now provides 24/7 enterprise-wide access for our members, with almost 811,000 encounters in 2024 alone.
- 6 in 10 adults in the US have a chronic disease.
- For some patients, Get Care Now may be one of their only encounters with a provider all year.
- Patients will get complete care at every visit.

Call to Action

When Evaluate Dx is available in a Get Care Now encounter, we are to address those diagnoses.

How Should I Manage Evaluate Dx Conditions?

Do

- Use the Evaluate Dx Tool to code/add the conditions to visit diagnoses.
- Mention to patients you are reviewing their chronic conditions and see that they have “X, Y, Z,” and are using this opportunity to check in.
- Order/advise patient of appropriate follow-up for conditions where applicable.

Do Not

- Update condition through Evaluate Dx, but **DO NOT** permanently delete unless a condition is clearly an error.

Completing an Evaluate Dx Form

1. Evaluate Dx is highlighted.
2. Diagnoses are highlighted with information about last encounter.

3. Choose whether the diagnosis is present and being managed, such as through medications/ consultations.

4. There is an Educ and Tools button that provides diagnosis specific information. Click **Accept Diagnosis**.
