

Clinical Case Quiz

Exercise is Medicine

The American Heart Association’s current recommendations for physical activity are:

- **Adults:** 150 minutes per week of moderate-intensity aerobic activity.
- **Children 3-5 years old:** physically active and have plenty of opportunities to move throughout the day.
- **Kids 6-17:** at least 60 minutes per day of moderate- to vigorous-intensity physical activity, mostly aerobic.

The health benefits of physical activity include which of the following:

- a. Improved bone health and weight status in children
- b. Reduces risk of dementia
- c. Lower incidence of type 2 diabetes
- d. Lower risk of all-cause mortality in adults
- e. All of the above

The answer is e.

Encouraging Physical Activity

Many Americans Aren’t Physically Active Enough

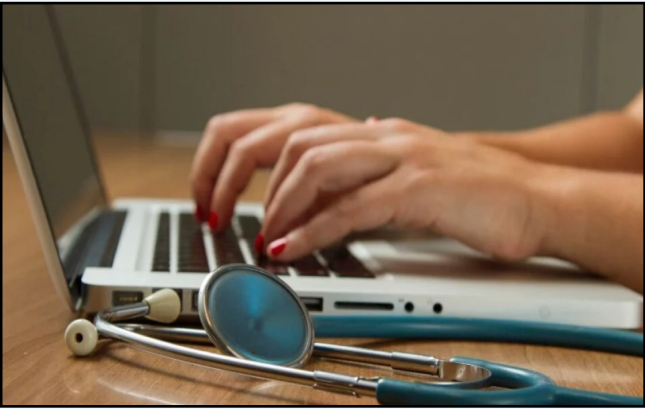

Despite all the health benefits of regular physical activity:

- According to the US 2016 National Health Interview Survey, 48% of adults are not meeting the physical activity guidelines for aerobic activity.
- About 36% of adults engage in NO leisure-time physical activity at all.

Let’s Move in April!

April is Move More Month! Its aim is to encourage all Americans to take part in more physical activity, and on a regular basis. For our members, assessing their current physical activity and giving a brief recommendation on exercise can go a long way in improving their health. For our providers, stay active and, if you feel up to it, start a sport. Here is an interesting article I found on [various sports and their association with improvements in life expectancy](#). Moral of the story, it’s tennis!

Introducing the GPC Mailbag!

At GPC Clinical Corner, we strive to provide tips on the best clinical practices, navigating patient encounters, and updated information on treatment options.

This year, we’d like to expand our scope to include your suggestions. We’re proud to announce the GPC Mailbag, where you can request topics for discussion, or even specific questions, that you’d like to see in a future newsletter. You can reach us at GPCMailbag@kp.org. We look forward to hearing from you!
